## 1. Introduction

The Asateel platform is an initiative of Abu Dhabi Integrated Transport Centre (ITC) with the aim at enhancing the compliance with transportation regulations for a safe and secure transportation sector throughout the Abu Dhabi emirate.

This platform facilitates transport companies to register with ITC, along with their vehicles and drivers. Asateel also adds value to their business by providing a fleet management solution. Asateel shall be used to obtain ITC Permits for companies, vehicles and drivers active in a regulated transport segment within Abu Dhabi.

The User Journey for obtaining permits encompasses 4 steps as shown below:

Figure 1: Steps of onboarding in Asateel platform

### Step 1: Company Registration

Companies are requested to register in Asateel Platform by providing few basic details. Upon the successful completion of company registration, companies will have access to Asateel Platform from where they can perform almost all the business activities related to tracking and monitoring.

### Step 2: Vehicle Registration

After a company is registered in Asateel Platform, that company can add its vehicle under its profile. Afterwards, a tracking device shall be installed in the vehicles to send data to Asateel. There are numerous certified suppliers and installation workshops available.

### Step 3: Adding Drivers

Similar to adding vehicles, companies can also add their drivers. It is not strictly necessary to complete the vehicle registration in order to add drivers to the company's profile.

### Step 4: Obtaining Permits

As the last step, companies can request required permits from ITC using their profile in Asateel Platform.

## 2. Company Registration

**Brief:** A company/operator can register in Asateel by following the registration process on the Portal.

**Related Screens:** Main Portal Page

**Workflow:** Users need to open ITC's Asateel web application to register their company.

**Path:** Go to the Asateel website at <https://iavmep.itc.gov.ae/IAVMEP>

**Important Note:** After completing the registration wizard, it might happen that the user can log into Asateel but has no access to all its features. This is because the company registration is still under review by ITC. Once the registration is approved, all features will be available for the user.

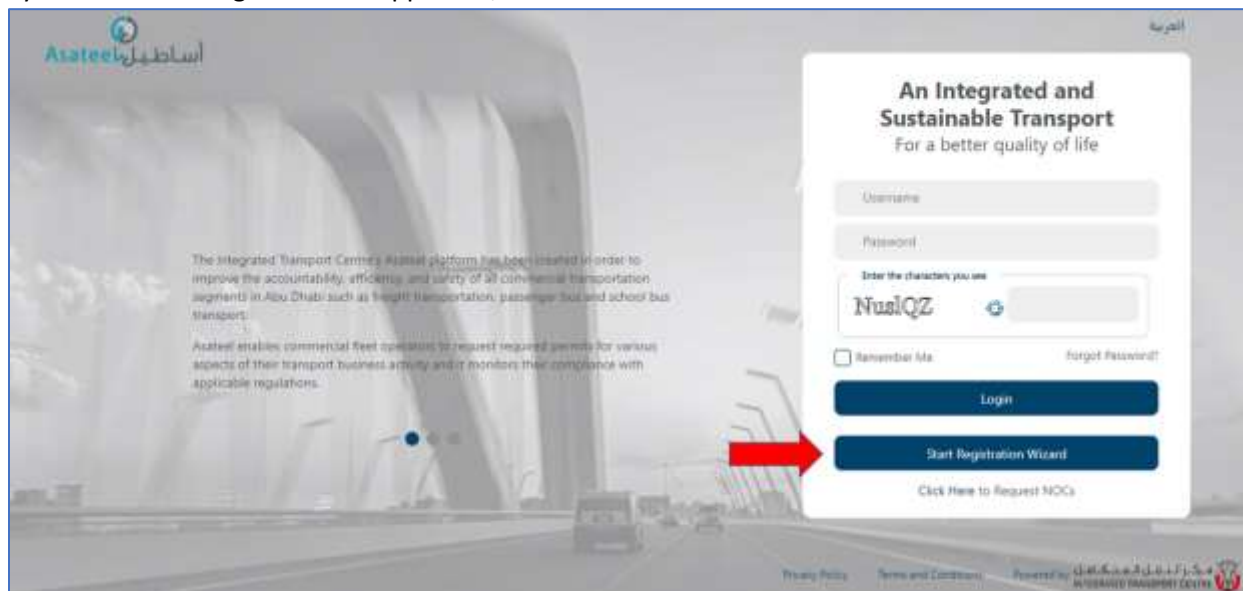

Figure 2: Home Page

- By clicking on Start Registration Wizard, a pop-up screen will open where user will select type of registration.

Figure 3: Registration Wizard

## 2.1. Platform Registration for Abu Dhabi Registered Companies

- Companies whose trade license has been issued in Abu Dhabi shall select that option.

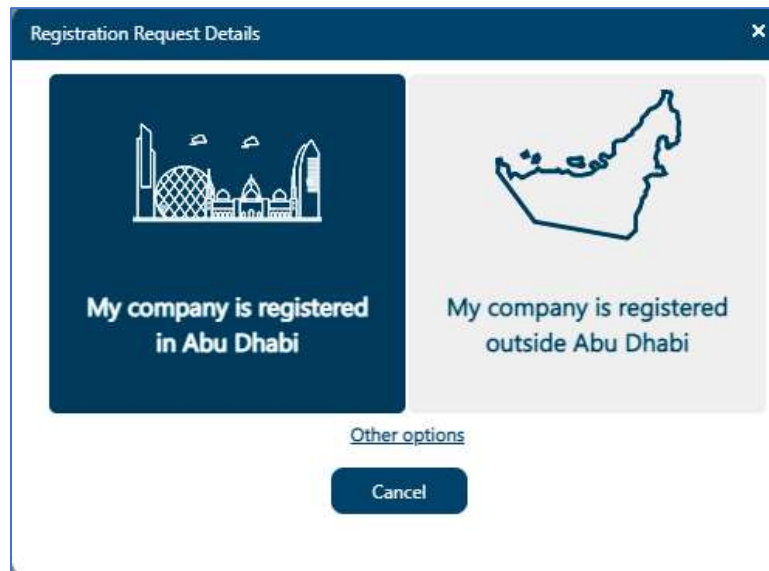

Figure 4: Selection of Inside Abu Dhabi Companies

- Upon selection, the user will be requested to enter the following information:
  - Trade License Number
  - Trade License Expiry Date
  - Accepting Terms and Conditions for the Platform Usage
- Click on “Search Trade License” button.

## 2.3. Registration for Private Vehicle Owners

In some exceptional cases, there are vehicles owned by private persons which based on the terms of applicable regulations require ITC permits to be operated. Such owners can also register in Asateel.

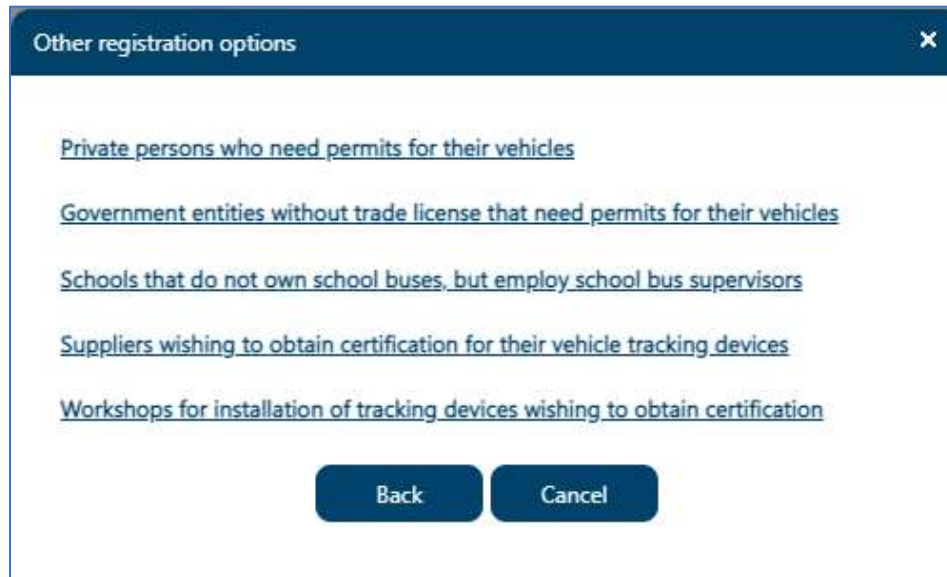

- To start registration, click on “Other options”.

The dialog box titled "Registration Request Details" contains two main options for registration. The first option, "My company is registered in Abu Dhabi", is accompanied by an icon of a city skyline. The second option, "My company is registered outside Abu Dhabi", is accompanied by an icon of the United Arab Emirates map. Below these options is a link labeled "Other options" and a "Cancel" button.

Figure 17: Other Options

- Afterwards, click on “Private person who needs permit for their vehicles”.

The dialog box titled "Other registration options" lists five categories of users who need permits for their vehicles. These categories are: "Private persons who need permits for their vehicles", "Government entities without trade license that need permits for their vehicles", "Schools that do not own school buses, but employ school bus supervisors", "Suppliers wishing to obtain certification for their vehicle tracking devices", and "Workshops for installation of tracking devices wishing to obtain certification". At the bottom of the dialog box are "Back" and "Cancel" buttons.

Figure 18: Selection for Private Owners

- User will be requested to enter his/her Emirates ID number. Click on “Search” button.

The form is titled "Registration Request Details" and has a close button (X) in the top right corner. It contains a text input field labeled "Emirates ID". Below the input field are three buttons: "Back", "Search", and "Cancel".

Figure 19: Emirates ID Input

- In next step, the user shall enter all relevant details.

The form is titled "Registration Request Details" and has a close button (X) in the top right corner. It has a tab labeled "Basic Info". The form contains the following fields:

- Emirates ID: 794198470643515

### 3. Vehicle Registration

**Brief:** Operators can register their vehicles in Asateel after having completed their company registration.

**Related Screens:** Vehicle Registration

**Workflow:** To register vehicles, operator user must open Vehicle Registration page.

**Path:** Menu → Administration → Vehicle → Vehicle Registration

**Quick search:** Use the search area and type “Vehicle Registration” to navigate to the vehicle registration page.

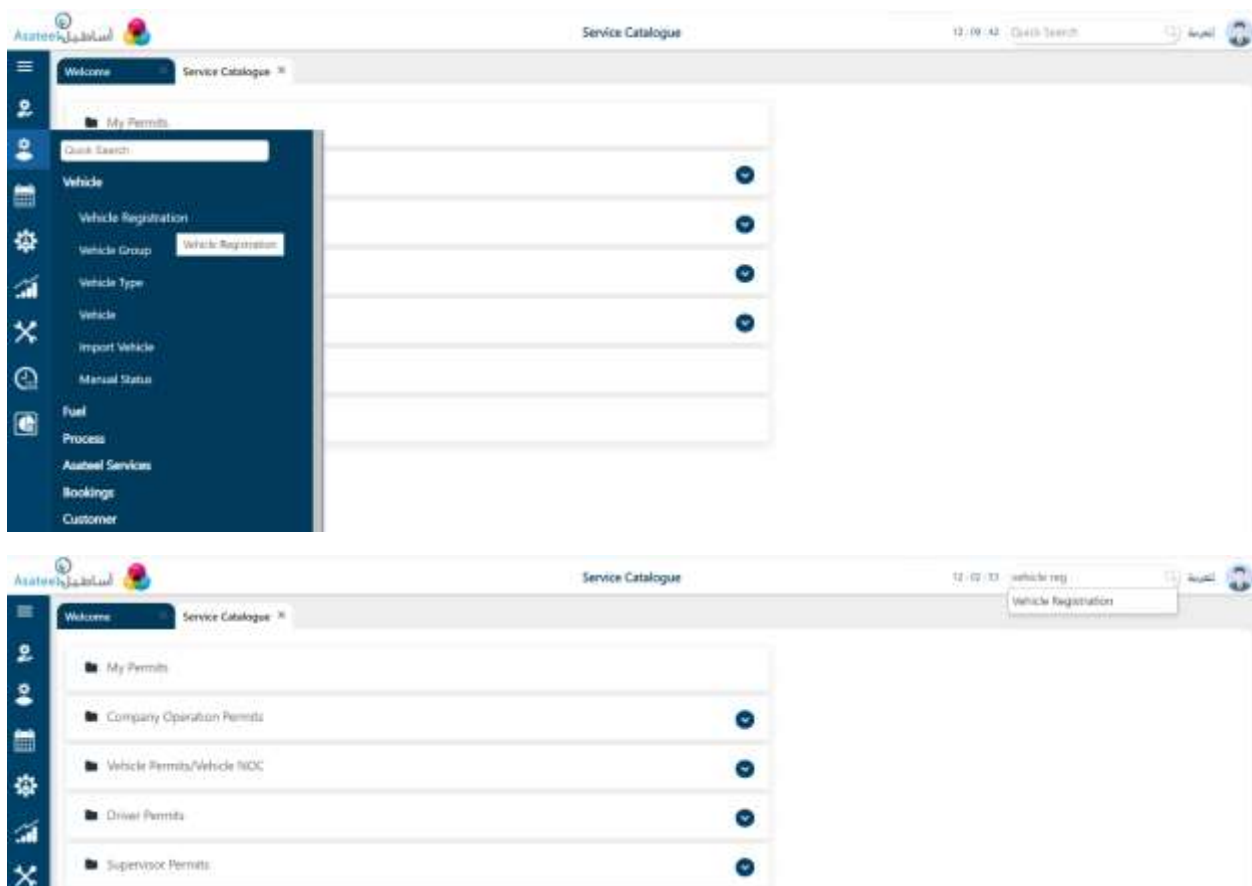

Figure 33: Vehicle Registration Page Path

- After opening Vehicle Registration page, the user can register his/her vehicles. Click on “Add Traffic Code Number” Button which shows as paper board icon.

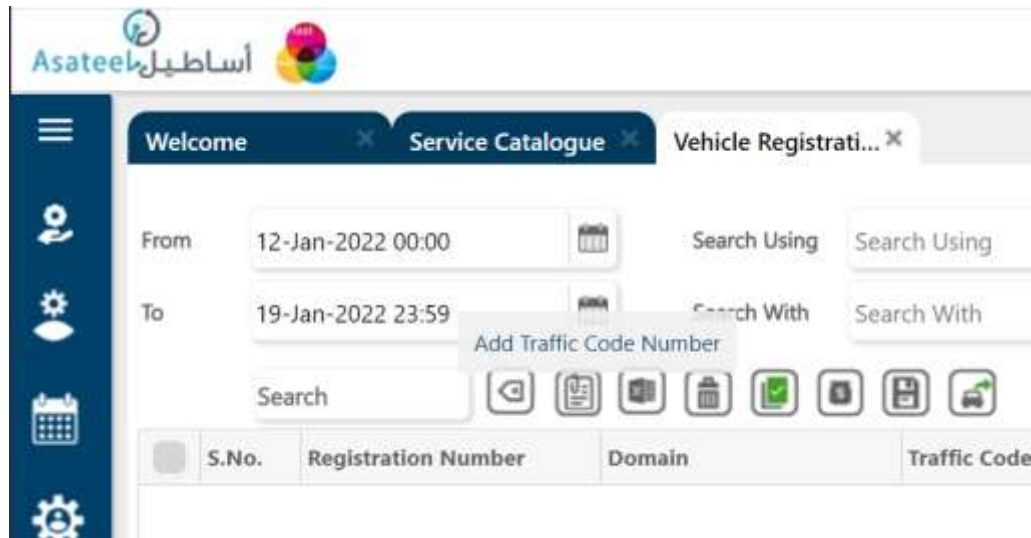

Figure 34: Add Icon for Vehicle Registration

- A popup screen will open. Enter traffic code number (TCN) and click “Search” button. Asateel will send an OTP to the mobile number linked with that TCN. Enter the received OTP and click “Verify” button.
- After verification of the TCN, it will be listed in the table. If the company has several TCNs under the same trade license, the user can search and verify additional TCNs. Once completed click “Submit” button.

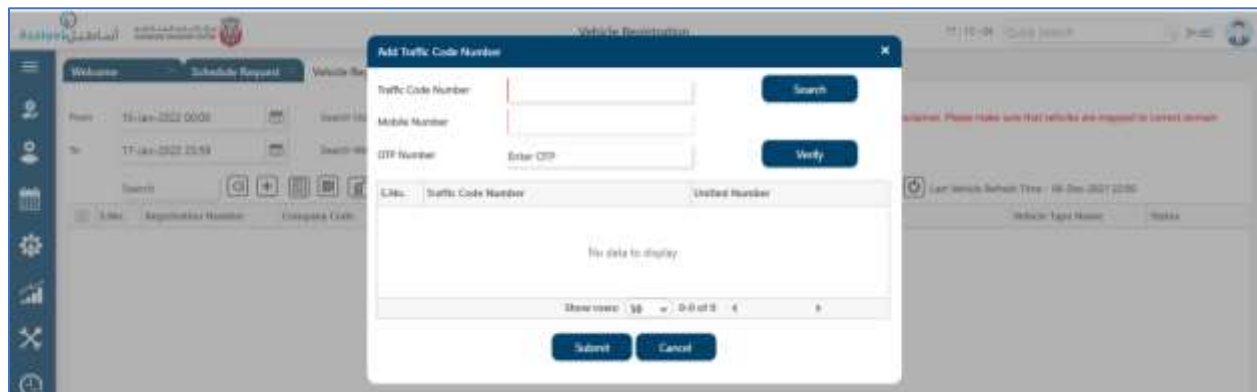

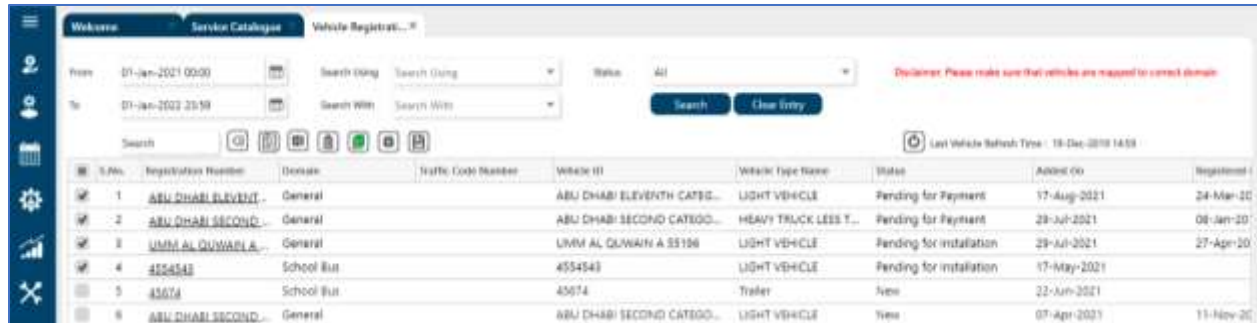

Figure 35: Adding TCN

- All vehicles linked with the searched TCNs will be listed in Asateel with status “NEW”.
- In the list, the user shall select only those vehicles that are to be activated in Asateel. They will have to get a tracking device installed (multiple selection is possible).  
Note that some of the vehicles listed might not need to be activated in Asateel because they are not affected by ITC Regulations and will not need any Permits (for example, the car used to do errands or the cars used by the managers of the company).

S.No.	Registration Number	Domain	Traffic Code Number	Vehicle ID	Vehicle Type Name	Status	Added On	Registered On

6	ABU DHABI SECOND...	General		ABU DHABI SECOND CATEGO...	LIGHT VEHICLE	New	07-Apr-2021	11-Nov-20

Figure 36: Selection of Vehicles for Device Installation

- As next step, click on the “Make Ready for Device Installation” icon.

Figure 37: Making Vehicles Ready for Device Installation

- At this stage, the company has to purchase and install a tracking device for each of the selected vehicles. The list of certified suppliers and devices can be found in ITC’s website. ITC strongly recommends to request quotations from different suppliers because device type and price may vary among them. The supplier will recommend the company a workshop for the installation of the tracking devices. Asateel-certified installation workshops will be able to make sure that the tracking device sends data properly to Asateel.
- Once the installation of the tracking device in the vehicle is successfully completed, the vehicle will get the “Active” status in Asateel.

**Note:** Companies will only be able to request Permits for active vehicles (i.e. registered in Asateel and with a functioning tracking device in them).

## 4. Driver Addition

**Brief:** This procedure describes how to add drivers in Asateel. Upon completion the company will be able to submit Driver Permits requests.

**Related Screens:** Driver Page

**Workflow:** To add driver in Asateel, the user shall open the Driver page.

**Path:** Menu → Administration → Driver → Driver

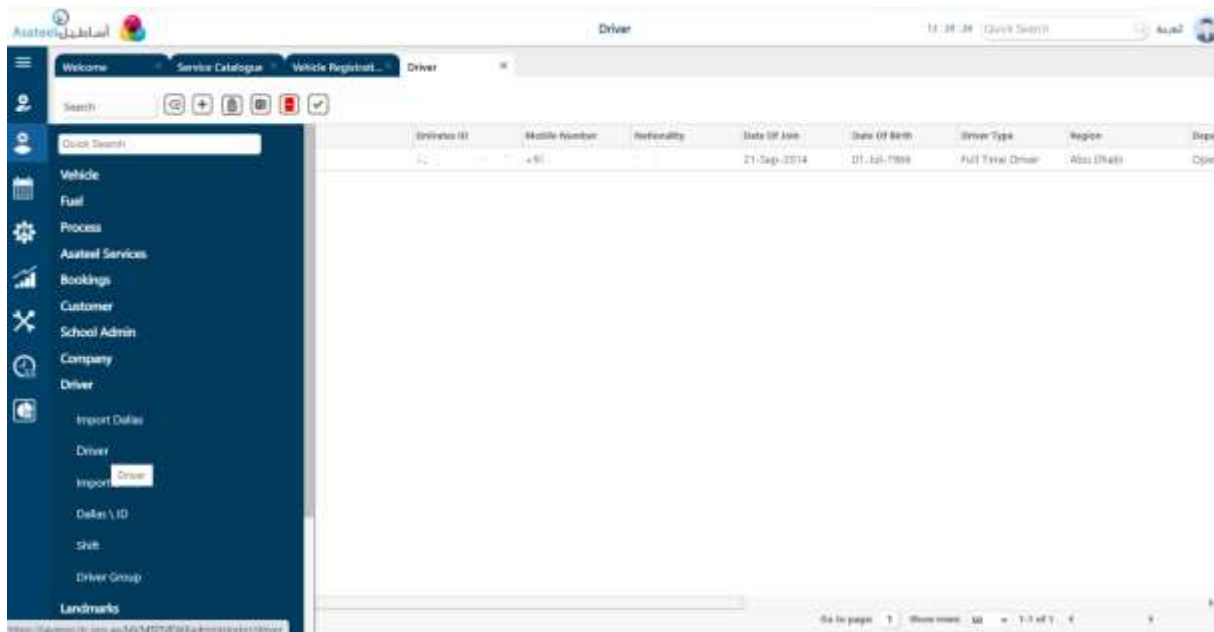

Figure 38: Driver Page Path

**Quick search:** Use the search area and type 'Driver' to navigate to the driver page.

Figure 39: Driver Page Quick Search

- Driver page in Asateel:

## 5. Applying for Permits

**Brief:** A company/operator can apply for company, vehicle or driver permits after registering to the platform.

**Related Screens:** Permits Page or Service Catalogue

**Workflow:** Log into Asateel, open the Service Catalogue and navigate to the relevant permit section in order to fill in an application.

Figure 46: Service Catalogue

**Alternative Workflow:** Log into Asateel, open “Permits” page and apply for permits as explained below.

**Path:** Service Catalogue → My Permits

**Quick search:** Use the search area and type “Permit” to navigate to the Permits page.

- Click “My Permits”. A page will open where the user can apply for new permits. This page also shows all permits of that user.  
To apply for a Permit, click on “Add” button shown as + icon.

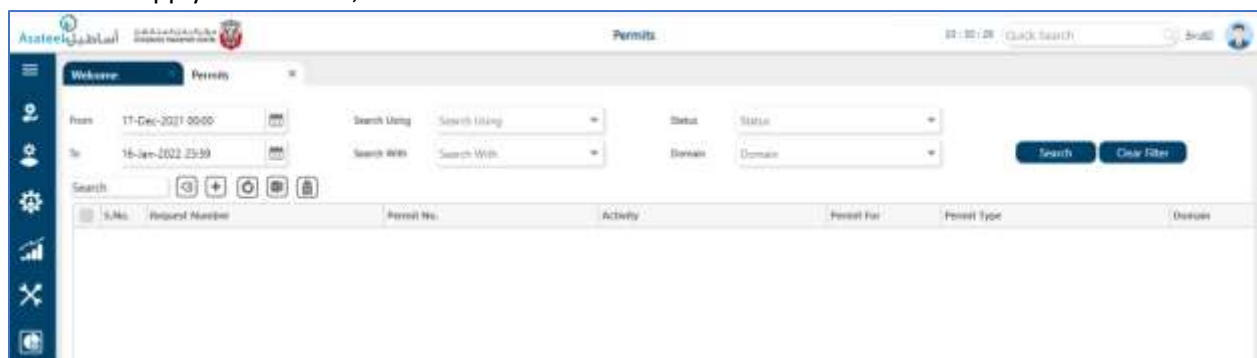

Figure 47: Permit Page

- Select permit category under “Permit For” dropdown box.

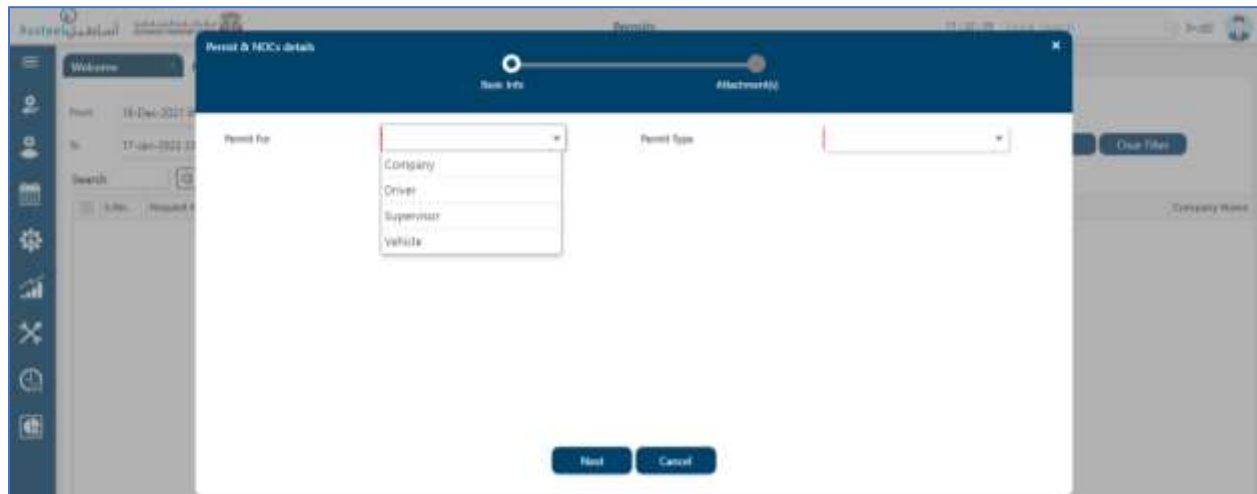

Figure 48: Available Permit Categories

## 5.1. Applying for Company Permit

After selecting “Company” in “Permit For” dropdown menu, the user can select the “Permit Type” from the dropdown box.

**Note:** Only permits that are relevant for the Domain(s) assigned to the company during registration (Freight, Passenger Bus, etc.) will be shown.

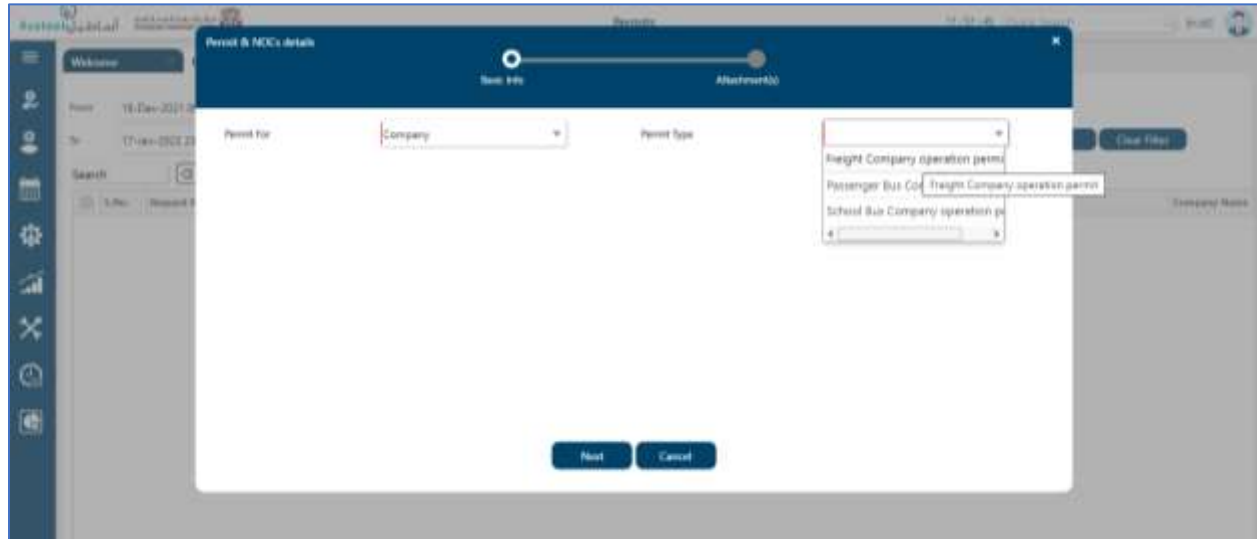

Figure 49: Selecting Company Permit Type

- Then, select ‘Request To’ date and the type of Activity that the Permit shall be valid for. The user can add remarks with relevant information that can be helpful for the ITC reviewers/approvers.
- Click “Next” button to submit the permit request.

Figure 50: Entering Company Permit Details

- After clicking “Next”, Supporting Documents can be uploaded (the corresponding Regulation will dictate the kind of documents that shall be attached to the request).

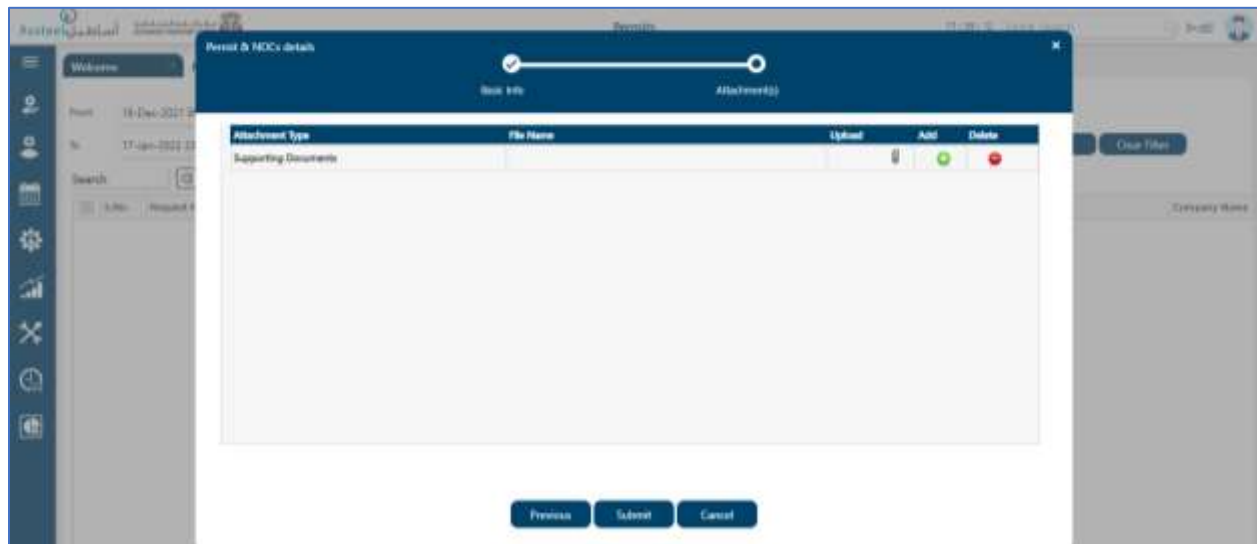

Figure 51: Uploading Company Permit Supporting Documents

- Click on the “Paper Clip” icon to select document to be uploaded. By pressing “Plus” icon, the user can add another document.
- Click “Submit” button to finalize the permit request.

**Note:** In an effort to provide the fastest service possible, Company Activity Permits might be issued automatically for the activities listed in the company’s trade license upon successful company registration in Asateel.

## 5.2. Applying for Driver Permit

The user can apply for a Driver Permit by choosing “Driver” in the “Permit For” dropdown menu and then choosing the “Permit Type”.

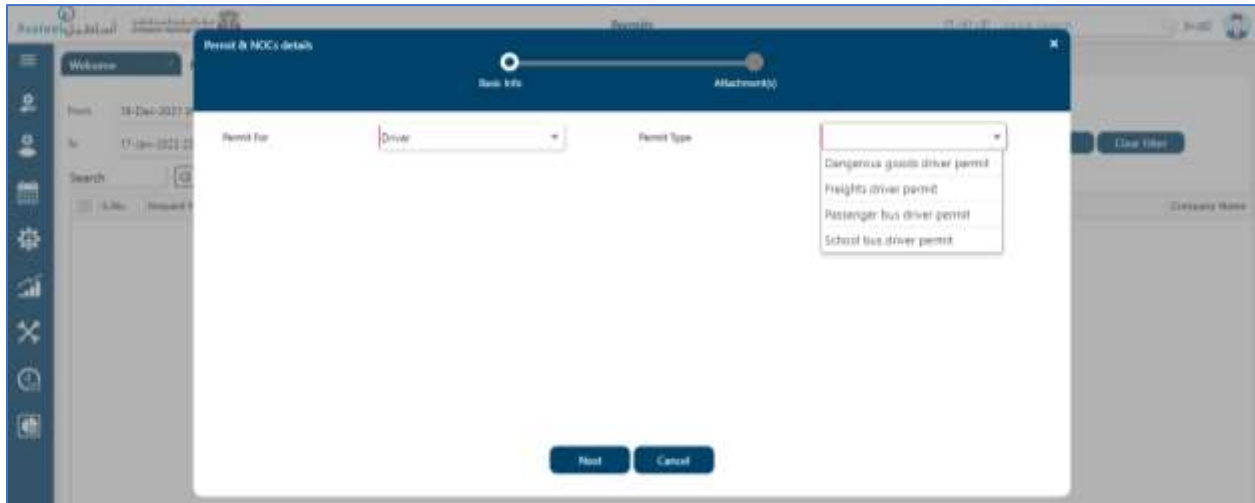

Figure 52: Selecting Driver Permit

- Upon selecting Permit Type, the list of registered drivers will be shown. The user can select one or more drivers and click “Next” button to proceed.  
The user can add remarks with relevant information that can be helpful for the ITC reviewers/approvers.

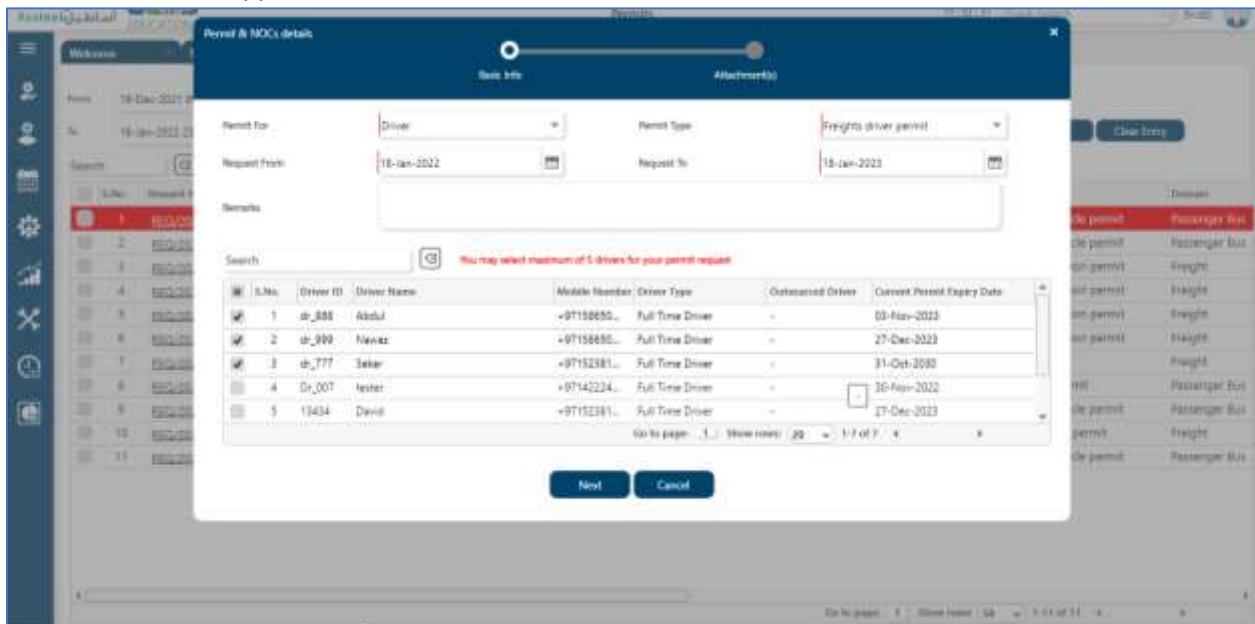

Figure 53: Entering Driver Permit Details

- After clicking “Next”, Supporting Documents can be uploaded (the corresponding Regulation will dictate the kind of documents that shall be attached to the request).

Figure 54: Uploading Driver Permit Supporting Documents

- Click on the “Paper Clip” icon to select document to be uploaded. By pressing “Plus” icon, the user can add another document.
- Click “Submit” button to finalize the permit request.

**Note:** In an effort to provide the fastest service possible, Driver Permits might be issued automatically upon submittal. However, changes, additions or limitations to the Permit might be added by ITC. In that case, a modification notification will be sent and the company must log in to Asateel, read and download the final Permit.

### 5.3. Applying for Vehicle Permit

The user can apply for a Vehicle Permit by choosing “Vehicle” in the “Permit For” dropdown menu and then choosing the “Permit Type”.

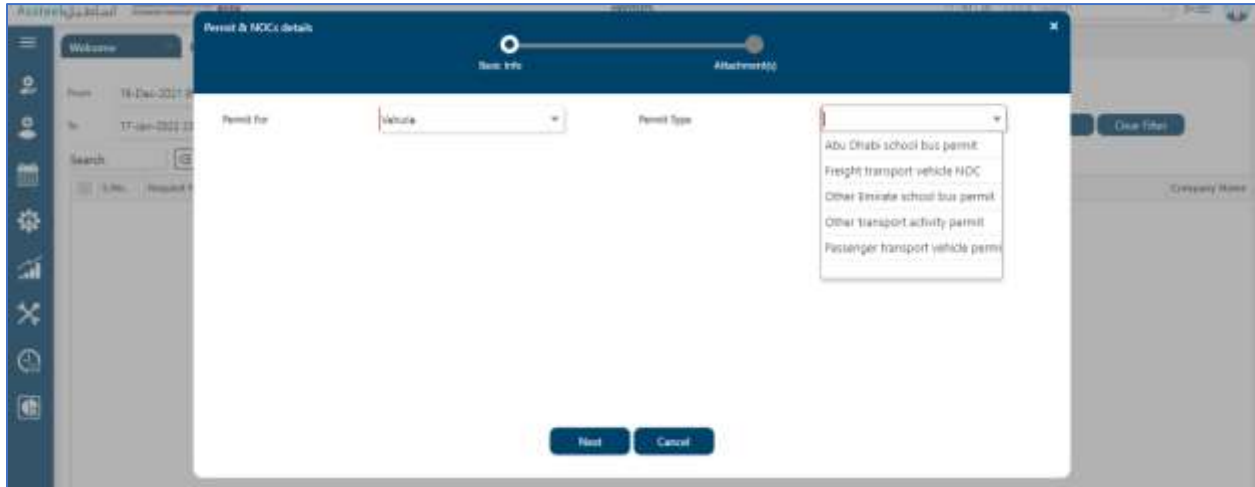

Figure 55: Selecting Vehicle Permit

- Upon selecting Permit Type, the list of registered vehicles will be shown. The user can select one or more vehicles and click “Next” button to proceed. The user can add remarks with relevant information that can be helpful for the ITC reviewers/approvers.

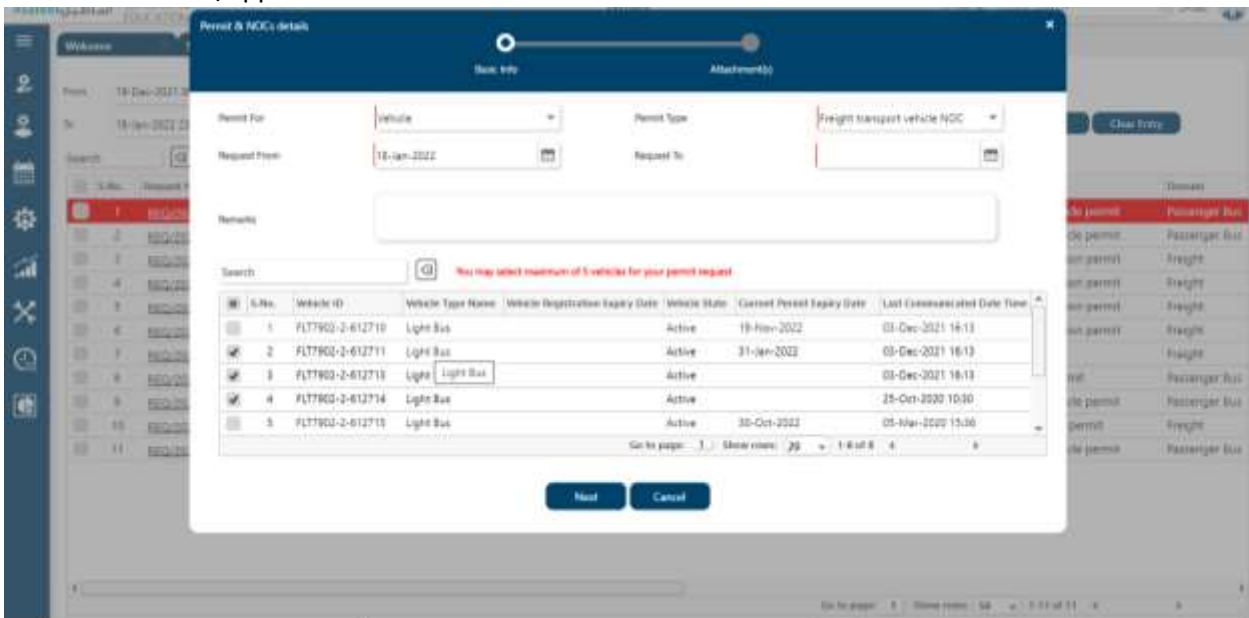

Figure 56: Entering Vehicle Permit Details

- After clicking “Next”, Supporting Documents can be uploaded (the corresponding Regulation will dictate the kind of documents that shall be attached to the request).

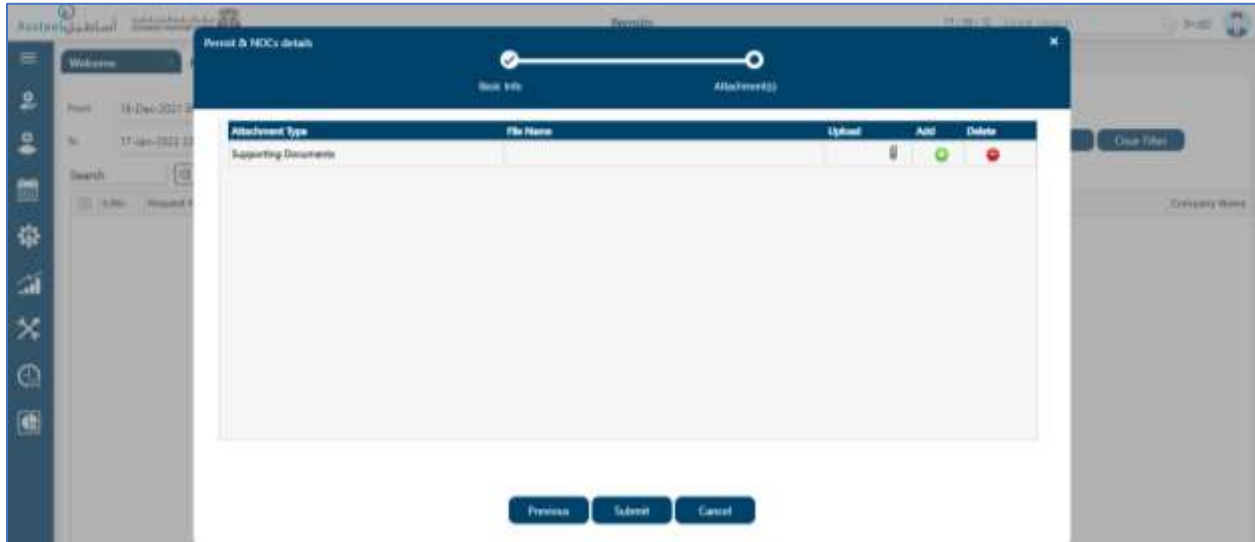

Figure 57: Uploading Vehicle Permit Supporting Documents

- Click on the “Paper Clip” icon to select document to be uploaded. By pressing “Plus” icon, the user can add another document.
- Click “Submit” button to finalize the permit request.

**Note:** In an effort to provide the fastest service possible, Vehicle Permits might be issued automatically upon submittal. However, changes, additions or limitations to the Permit might be added by ITC. In that case, a modification notification will be sent and the company must log in to Asateel, read and download the final Permit.
